3.1.2.3 Security Police Operations. The contractor shall maintain law and order and assist wildlife control/enforcement; maintain the capability to support detailed and specialized investigations of criminal activities; support space launch operations; and immediately notify NASA (Security) and the Air Force (Range Security) of all incidents that have or had the potential to become violent, result in felony arrest, concern potential counter intelligence matters, media involvement, or other significant events that would cause NASA-KSC or Air Force security to notify senior management. (Mod 297)

During actual and practice launches and landings, the contractor shall perform the following:

- Develop and coordinate timelines and checklists for all launch and landing activities;
- Provide teams to clear designated areas (such as Blast Danger Area/Impact Limit Line or SLF Landing approaches);
- Maintain blast danger area/impact limit line clearance and/or roadblocks as defined in appropriate plans to meet customer requirements;
- Establish roadblocks for perimeter control in the vicinity of the launch/landing pad(s) and/or SLF;
- Establish additional control/surveillance post(s) as stipulated in appropriate Operations Plans;
- Establish chase vehicles for major entry points;
- Establish control roadblocks to protect launch/landing site perimeter area and/or the SLF;
- Provide support for NASA Causeway viewing and other viewing sites;
- Provide protection for VIPs and astronauts and during escort to and from the launch and landing pad, following landing, and to and from other areas including special presentations/events at KSC Visitor Complex or other sites on ~~and off~~ the Center, and staff the astronaut crew quarters and cul-de-sac and provide personal protection to astronauts three days prior to launch and during TCDT; (Mod 442)
- Provide K-9 bomb/explosive detection support for astronaut and VIP protection and bus checks at the KSCVC as scheduled launch activity;
- Provide protection for special facilities or vantage sites critical to space launches and landings;
- Increase traffic control and direction to ensure the adequate and safe processing of all traffic;
- Augment emergency response forces to affected critical facilities;
- Provide controlled entry at SLF gates;
- Protect SLFs from unauthorized access;
- Provide additional Security Force personnel for waterway and helicopter patrols in support of all launches and/or landings; and contingency actions;
- Provide critical facility controls through launch and landing;
- Conduct helicopter patrols to ensure only authorized personnel are on restricted property, provide active air defense missions in accordance with KSC policy to protect flight crew and launch personnel; and
- Provide daily force protection posture as listed in Technical Exhibit 3.1.2-03

Systems Security. The contractor's Security Services shall support the security mission for protection of Air Force and NASA-KSC Priority/Critical Resources and Space Launch Systems including launch systems, payload systems, and command and control systems, in accordance with applicable Air Force and NASA standards and regulations. Accordingly, operating and post instructions and procedures shall be developed to support security force operations.

The contractor shall install portable sensors in key critical locations during surge periods of activity to augment existing security forces.

All emergency service and daily communications for security forces shall be managed through the Joint Communications Control Center (JCCC).

The contractor shall maintain a capability to routinely support security services post and patrol requirements in accordance with applicable directives, including protection of priority and non-priority aircraft.

Alarm and Security/Special Response Teams (SRTs) shall be equipped with suitable vehicles for response activity on and off roadway and shall be in constant communication with the consolidated communication control center.

The contractor shall perform user special operation support and hazardous operation safety roadblocks by the appropriate safety and security plans. Security Forces shall establish Extended Restricted Areas (ERAs) or launch danger area safety zones to preclude entry of unauthorized persons into the expanded temporary restricted or critical areas as outlined in the appropriate approved plans to support launch operations. The contractor shall convoy or escort launch systems payloads, flight hardware, miscellaneous movements, and other dangerous or hazardous movements on CCAFS and KSC.

Emergency Response. The contractor shall perform the following:

- Establish dedicated KSC Emergency Response Teams (ERTs) as listed in Technical Exhibit 3.1.2-01; and
- Provide CCAFS response teams as listed in Technical Exhibit 3.1.2-03

3.1.2.4 Law Enforcement. The contract security police force as a whole, shall provide Law Enforcement (LE) in support of institutional and user requirements and develop operating and post instructions and procedures to support the function. Contractor responsibilities shall be to protect human life, government assets, high-value property, and conduct motor vehicle traffic management enforcement.

~~KSC Brevard County Sheriff Office (BCSO) Special Deputies shall be selected by an Advisory Selection Group (ASG). The ASG will consist of one member from the BCSO, and one member from KSC Protective Services and Safeguards Office (PS & SO). The contract service provider security Chief of Police shall provide nominee packages to the ASG. The ASG will refer qualified candidates through the Chief of the PSSO for final approval and submission to the Brevard County Sheriff. KSC special deputies shall serve for a one-year period, predicated on work performance. Prior to the end of the one-year selection period the ASG will reconfirm special deputies for additional one-year periods. If a special deputy is not reselected they shall be considered for non-special deputy duties within the contractor workforce. (Mod 232) (Mod 293)~~

~~Additionally, the contractor shall from among its security police workforce provide a cadre of contractor security officers appointed as Brevard County Sheriff Office (BCSO) Special Deputies (as allocated by the Sheriff and partnered with KSC Protective Service Office) to provide KSC local and State Law enforcement services. These services are in addition to their primary duties as contractor security officers. The contractor should request sufficient BCSO Special Deputies to support a minimum of two KSC Emergency Response Team officers on each shift and all investigators shall be BCSO Special Deputies.~~

~~Contract security officers assigned, as BCSO Special Deputies, shall perform the following tasks in addition to their primary duties:~~

- ~~• Identify, detain, and when appropriate, apprehend/arrest violators;~~
- ~~• Investigate incidents, allegations and offenses;~~
- ~~• Investigate traffic accidents;~~
- ~~• Enforce traffic laws and regulations on KSC; and~~

~~• Issue Florida Uniform Traffic Citations (FUTC) (Mod 442)~~

The contractor shall:

- Apprehend violators;
- Investigate incidents and offenses;
- Safeguard disaster and crime scenes;
- Enforce traffic laws and regulations;
- Investigate traffic accidents;
- Issue traffic citations;
- Appear at hearings before the U.S. Magistrate and other Judicial agencies;
- Direct traffic;
- Process security police administrative forms; (Mod 442)
- Maintain records;
- Conduct security checks of closed, controlled, or sensitive areas at intervals as prescribed by compliance directives on a non-predictable basis;
- Perform protection escorts for astronauts or their families, VIP visits when required, and intra-site movement of nuclear isotope power sources;
- Support the KSC Traffic Management Review Board; and
- Implement and enforce compliance with state requirements of all new or modified KSC/CCAFS traffic signals, signs, and roadway markings

The contractor shall control ingress and egress at specified CCAFS and KSC installation entry control points in accordance with applicable NASA-KSC/CCAFS directives and plans, and maintain a deposit box at manned entry control points for depositing passes, badges, and cargo clearances for outgoing personnel.

Security Forces shall conduct random entry and exit point checks of vehicles entering or leaving the installation using an agreed upon formula. These checks shall be conducted to safeguard government property, prevent introduction of contraband, and preclude the unauthorized removal of classified information.

3.1.2.5 Investigations. The contractor shall:

- Conduct investigative support and surveillance of actual or suspected criminal activity in areas under the cognizance of KSC, CCAFS, and Florida Annexes with the approval and coordination of, or at the request of, KSC Protective Services or 45th Space Wing Range Security Office;
- Obtain prior written coordination and government approval before utilizing covert electronic surveillance techniques/methods;
- Plan, collect, evaluate, analyze, and integrate criminal and security information involving KSC, CCAFS, and Florida Annexes;
- ~~• Determine appropriate criminal code violations and jurisdictional responsibility and recommend course of action to KSC Protective Services/45th Range Security after coordination with appropriate law enforcement agencies; (Mod 442)~~
- Testify on criminal investigations in court or other appropriate forum; (Mod 442)
- Assist in NASA/Range Security Office or NASA Office of the Inspector General (OIG)/Air Force Office of Special Investigations (OSI) investigation and surveillance activities;
- Coordinate all other investigative matters involving other KSC or CCAFS contractors through the appropriate contractor investigative elements;

- Control, maintain, and use surveillance equipment;
- Protect, store, and control evidence in accordance with appropriate ~~state and federal~~ evidentiary rules and practices; (Mod 442)
- Provide “centralized lost and found” services, including logging for receipt and destruction;
- Provide ~~Off-site~~ protection for designated flight-crew members, families, and distinguished visitors/very important persons (DVs/VIPs); and (Mod 442)
- Support NASA technical laboratory services available worldwide, to Law Enforcement Agencies

3.1.2.9 Security Education and Training. The contractor shall develop and implement a Security Education and Training Program Plan for all personnel at KSC/CCAFS and the Florida Annexes in accordance with NPR 1620.1A, AFI 31-207, and Lead Center Agreement.

The contractor shall provide NASA Federal Law Enforcement Training at KSC and other NASA centers and maintain records in support of the Lead Center Agreement for Agency policy and standards development and training in the area of security and law enforcement including the NASA Federal Arrest Authority program, the NASA Security Officer Fundamentals Course (SOFC), verification of the Commission on the Accreditation for Law Enforcement Agencies (CALEA), and the Department of State Foreign Service Institute SAFE (Serve Abroad for Families and Employees) training for NASA employees deployed overseas. Security Force Trainers shall be trained and certified by Federal Law Enforcement Training Center (FLETC), ~~the Florida Department of Law Enforcement (FDLE)~~, or as coordinated/partnered with cognizant government activity (NASA-KSC/TA-G – 45 SFS/SFR). Instructors shall be required to travel to other NASA Centers or facilities or to other locations to conduct training as partnered with the KSC Protective Services office in accordance with compliance document SI-PSO-IMI-FAAP-1, 07197. (Mod 273) (Mod 442)

The contractor shall provide safe operation and oversight of the KSC NFLET Range and shall ensure properly trained and certified Range-master/firearms instructors are available to conduct scheduled on-duty weapons qualifications. The NFLET Firearms Range personnel shall develop, host, and conduct specialized firearms training for NASA, the contract security/Emergency Response Team, and coordinate conduct mutual aid for local, State, and federal law enforcement agencies. This training shall include less-lethal weapons, judgmental shooting drills, night firing, shoot-house, Simunitions scenarios “active-shooter” responses, and sub-machine gun operator. Non-NASA/contractor agencies shall be allowed to utilize the range on a non-interference basis through coordination with the contractor security Training Division personnel.

Furthermore, the contractor shall develop and maintain a Training Records Automation Center (TRAC) that allows tracking of the following:

- **Historical Training Information.** Includes a complete history of all training and certifications received by each Security Force member.
- **Current Employee Information.** Shows assignment changes and tracks assignment requests made by Security Force members. This portion of the system also tracks Seniority, Weapons Restriction List, and the Fitness for Duty Report.
- **Physical Fitness Information.** Tracks the physical qualifications of the Security Force. This portion of the program shall also track all due dates based on contract requirements.
- **Scheduling of Training.** This is the control point for scheduling employees for training and tracking training qualifications. These programs interface with the Master Training Plan, Weapons, and Physical Fitness Modules. All courses are scheduled for Security Forces through the Scheduling Module to ensure that no conflicts in training occur.
- **Re-qualification of Specific Courses.** Tracks due dates for all course requirements and assists in scheduling future training. Is capable of generating updated reports to NASA/Range Security 30 days before expiration of current certification.

- **Weapons Qualification and Re-qualification.** This portion of the program is an unbound form that is used to enter Firing Records into the firearms table.

Specific requirements for the TRAC application are listed in Technical Exhibit 7.0-007.

The contractor shall certify initially as they qualify, and subsequently each year, that Security Force members meet and maintain the minimum requirements to perform assigned duties in compliance with AFI 31-101, AFI 31-207 and NPR 1620.1A.

3.1.2.11 Certificate Requirements. The contractor shall obtain the appropriate certifications. Certification requirements are specified in compliance documents NPR 1620.1 and AFI 31-101 and shall include, but not be limited to, the following:

- Law enforcement and investigative personnel successfully completing the Basic Police Standards Course (Florida Department of Police Standards) or an equivalent law enforcement certification from another state;
- Twenty percent of the Security Force shall be Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillators (AED) qualified, 100 percent of the Emergency Response Team and training instructors shall be CPR trained;
- ~~Deputized officers meeting the requirements for a Brevard County deputy sheriff (sufficient supervisors and security officers) will be deputized to enable enforcement of state criminal and traffic law on KSC; (Mod 442)~~
- Certifications for KSC Emergency Response Team members;
- Recognized professional training certifications for contractor security/ERT instructors to include general and specific firearms, other weapons, tactics, rappelling, and Simunitions;
- Locksmiths completing an accredited master key system/locksmith course (Associated Locksmiths of America or equivalent);
- Security Force members obtaining and maintaining a SECRET national security clearance and the NASA PRP certification, as necessary;
- All Security Force members being weapons qualified;
- Providing certified Intoxilizer operators to conduct Intoxilizer tests, as required by State of Florida requirements;
- Providing certified detention cell personnel to perform detention and care of prisoners to ensure compliance with the appropriate state and federal requirements; **and (Mod 442)**
- ~~Providing certified vehicular homicide investigators; and (Mod 442)~~
- Security Force members supporting specialized activities (such as K-9, helicopter, and boat patrol) being certified in accordance with appropriate NASA, **and Air Force, federal, and state** requirements. **(Mod 442)**
